About me

I'm Senth, a passionate Software Engineer with a B.Sc. in IT from SLIIT, skilled in full-stack development, digital marketing, and creative strategy. I bridge technology and storytelling to build impactful digital solutions. With hands-on expertise in AI systems and active involvement in developing AI-driven products, I bring innovation to every project I lead. As a YouTube partner and marketing lead with a strong online presence, I combine technical depth with brand growth - connecting technology, creativity, and people in meaningful ways.
